wrath or to expose her to public contempt or riddeule thereby, or tends to deprive her of social intercourse, would be defamatory and libelous in its nature.

In construing the words used in the article complained of you should consider their fair and natural meaning when taken in connection with the whole of said writing, and you should construe them in the sense in which, considering the words used and the whole of said article, they were calculated to impress the reader's mind and ought fairly and naturally to have been understood by persons reading them.

If it appears from the evidence that the defendant published said article of and concerning the plaintiff and if it further appears that, when the words used in said article are construed as above directed, it was the intention of the persons writing such article to impress upon the understanding of those to whom same was published the thought that the plaintiff was a woman of low, vic ous disreputable or bad character, or that she was a woman of dangerous character and not entitled to public respect and confience, or that she had committed a public offense, to-wit, crime of assault and battery, then said article would be defamatory or libelous in its character, but said article would not be defamatory or libelous in its character, but said article would not be defamatory or libelous in its character, but said article would not be defamatory or libelous in its character, but said article would not be defamatory or libelous in its character, but said article would not be defamatory or libelous in its character, but said article would not be defamatory or libelous in its character, but said article would not be defamatory or libelous in its character, but said article would not be defamatory or libelous in its character by reason of the words "Miss Huffman's a large woman and shows the mark left by the severe case of smallpox," unless it further appears from the evidence that when taking the connection with which said words are used, that said words were suc

course.

If it appears from the evidence that the defendant published the article in quest on of and concerning the plaintiff, and that same is defamatory and likelous in some one or more of the ways charged by the plaintiff, then for the plaintiff to recover it must also appear from the evidence that the action of the defendant in publishing said article was malicious.

malicious.

By malicious, as the term is here used, is By malicious, as the term is here used, is meant not only acts prompted by hatred, ill will or a spirit of revenge toward the person against whom the act is directed, but it includes also unlawful act prompted by an improper or sinister motive.

The defendant claims that the article in question was true, excepting that part thereof which says the plaintiff shows the marks left by a severe case of smallpox.

If it appears from the evidence that any portion of the statements contained it said article are true, it will be a complete defense as to the publication of so much of said article as it is shown to be true.

THREE SUSPECTS ARRESTED awarding damniges, if any are awarded by

The defendant states further that said article was published on the strength of statements made by plaintiff herself and was published in good faith, and if said state of facts is shown by the evidence you should consider same in awarding damages, if any are allowed by you.
